years from now...

will people know what you did?

They will if you're an embedded software engineer at Philips Semiconductors.

Apply NOW www.bluedakota.com/philips9

Let's make things better

 **PHILIPS**

Using cutting-edge System-on-a-Chip technology, the Philips Nexperia Digital Video Platform will revolutionize the way people live by transforming static home entertainment into multimedia gateways that will become the heart of the digital, connected home.

Nexperia solutions are here today, and you can be a part of this revolution.

Take 10 minutes to apply now to make your mark on the Digital TVs and Advanced Set-Top Boxes of tomorrow.

You and Philips. Meeting the needs of the 21st Century.
