

# RENEW™

## Latex Exam Gloves

Made from high-quality latex rubber, Renew™ Series 784 from Summit Glove really delivers.

This glove is 8 Mil thick latex with 12" extended beaded cuffs, ensuring strength, protection and durability for high-risk applications. Renew™ powder-free exam gloves are also polymer lined for greater ease in donning and removal. In addition, Summit's double chlorination process allows for greater tactile sensitivity and lower protein content, for reduced risk of latex irritation.

Renew™ single-use latex exam gloves are ambidextrous and manufactured to internationally recognized ISO 9001 and EN46001 standards.

Since 1998, Summit Glove, Inc. has been a leading supplier of high quality gloves for America's workforce. From liquid-proof to machine knit to cotton and leather, Summit Glove provides the right glove for a variety of applications. If you're looking for gloves manufactured to the highest standards of quality, delivered with fast and friendly service, reach for the Summit.

# NitriTech™ EMS

## Nitrile Exam Gloves

When latex is a concern, look to Nitrile from Summit Glove. NitriTech™ EMS, our exclusive brand of 100% Nitrile examination gloves, are a high-quality synthetic alternative to natural latex and latex-blends.

Ideal for applications including emergency medical services and emergency first response, our gloves are light, soft, and flexible. NitriTech™ EMS gloves also feature textured fingers for better wet/dry gripping and extended 12" beaded cuffs for maximum protection in high-risk applications. These high quality gloves are available in powder-free, sizes Small through XXX-Large.

Since 1998, Summit Glove, Inc. has been a leading supplier of high quality gloves for America's workforce. From liquid-proof to machine-knit to cotton and leather, Summit Glove provides the right glove for a variety of applications. If you're looking for gloves manufactured to the highest standards of quality, delivered with fast and friendly service, reach for the Summit.

High Quality Gloves for America's Workforce

## EMS SERIES

- Nitrile Examination Glove - 5 mil
- 1.5 AQL • Class 1 Medical Device
- 100% Nitrile Polymer
- 12 Inch Length • Single Use
- Powder Free
- Micro Textured Finish
- Blue Color
- Beaded Cuff
- Ambidextrous
- Manufactured to internationally recognized ISO 9001 and EN46001 Quality Systems
- FDA 510 LISTING RE: K963804

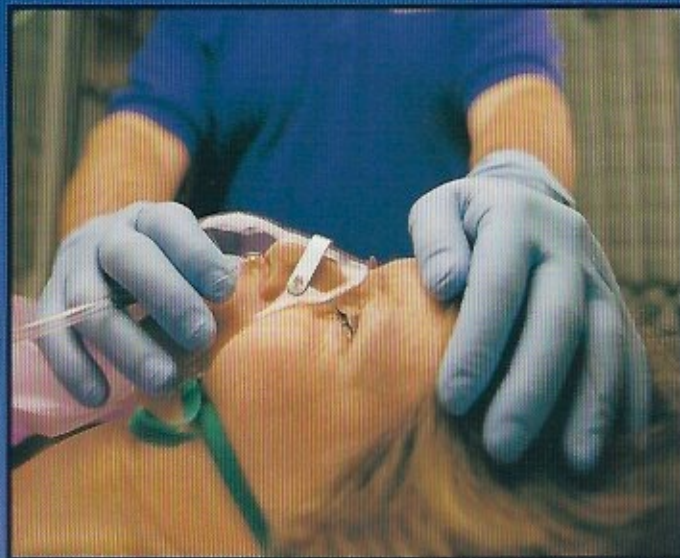

**Main Components:**  
Nitrile Polymer, Sulphur, Zinc Oxide,  
Zinc Dibutyldithiocarbamate,  
Titanium Dioxide and Blue Pigment  
(C.I. Number: 74160)

**Instruction for Use and Storage:**

1. Choose the appropriate glove size to avoid hand fatigue
2. It is recommended to visually check the glove condition intermittently during use. Discontinue using if serious physical (swelling) changes occur.
- NOTE: Glove performance quoted based on laboratory data and may vary depending on the actual condition of use. The user should follow the instructions above during application.
3. Do not use the glove in contact with hazardous chemicals or solvents for long durations.
4. Storage: Keep ideally at 15C to 30C and 40% to 65% room humidity.
5. With proper storage, projected 5 year expiration date.

Glove is made only using listed materials and levels as outlined in the Code of Federal Regulations (21CFR), parts 170-199, and is acceptable for use in both food and pharmaceutical applications.

### DIMENSIONS
